## HiPP Dutch Goat Stage 1 Organic Infant Formula (400g)

**Age:** From Birth Onward

**Yield:** Approximately 104 fl oz of Formula

Considering a formula for digestive issues or cow's milk sensitivity? HiPP's Dutch-labeled organic goat milk formula is easy on infant tummies. Made with EU certified organic skimmed goat milk, lactose, and vegetable oils, it offers a foundation similar to breast milk. Unlike the usual A1 cow's milk protein, goat milk is naturally A2, aiding in quicker digestion for sensitive tummies.

Mimicking breast milk, HiPP's formula incorporates prebiotics for a healthy gut and improved digestion, reducing colic in infants. Additionally, it features essential fatty acids like DHA (Omega-3) and ARA (Omega-6) for brain and eye health. While goat milk is naturally nutrient-rich, HiPP fortifies its formulas with all necessary vitamins, minerals and other components for overall growth and per EU infant formula guidelines.

This Dutch version of HiPP goat caters to babies' evolving needs with Stage 1 for 0-6 months and Stage 2 for 6+ months. Worldwide, babies thrive on this formula - yours might too!

- ✓ Based on A2 Goat Milk
- ✓ Only contains lactose as a carbohydrate
- ✓ Prebiotics improve gut health and help prevent constipation
- ✓ Added DHA and ARA for brain, eye and immune function

- ✓ No maltodextrin
- ✓ Certified organic by EU
- ✓ No starch
- ✓ No soy
- ✓ No gluten
- ✓ No GMOs

## INSTRUCTIONS

1. Boil water freshly for each of baby's meals and allow to cool down to 120 degrees Fahrenheit (50 °C).
2. Pour boiled water into a clean and sterilized bottle.
3. Using the scoop provided with your box of formula (note that spoon sizes vary by brand and even lot), add the correct number of leveled scoops of powder (1 leveled scoop of powder per 1oz / 30ml of water).
4. Close the bottle with the nipple and cap and vigorously shake.
5. Cool to drinking temperature (approximately 98 degrees Fahrenheit or ~ 37 °C) and **ALWAYS test the temperature of the milk before feeding to avoid scalding or burning your little one.**

There are many parents that regularly use distilled water without boiling it prior to mixing, apparently with no negative consequences. We cannot recommend this approach and there are actual reasons even the WHO recommends pre-boiling tap or distilled water. [Watch this video for more insight into this topic.](#)

## MIXING AND FEEDING INSTRUCTIONS (HIPPO GOAT 1)

AGE	BOTTLES PER DAY	WATER (OZ)	# OF SCOOPS
0 to 2 Weeks	7-8	2	2
3 to 4 Weeks	5-7	3	3
5 to 8 Weeks	5-6	4	4
3 to 4 Months	5	5	5
5 <sup>th</sup> Month	4-5	6	6
After 6 Months	4	7	7

## DON'T FORGET

- ONCE YOU HAVE OPENED THE FORMULA CAN, YOU SHOULD USE WITHIN 2 WEEKS.  
AVOID STORING IN AREAS OF HIGH HEAT OR HUMIDITY.
- IF MIXED FORMULA IS NOT CONSUMED WITHIN AN HOUR, YOU SHOULD DISCARD IT.
- DO NOT MICROWAVE BOTTLES OR FORMULA.

## INGREDIENTS
